WARNING

Products in this catalog can expose you to chemicals including lead and/or nickel, which are known to the State of California to cause cancer and birth defects.

For more information, go to: www.p65warnings.ca.gov.

Fast. Friendly. Reliable.

PCI Hydraulics+

We are a leading supplier of quality hydraulic components including high pressure ball valves, quick disconnect couplings, diagnostic products and pipe, tube and hose clamps.

Why Choose Us

Complete Interchange

We have the most complete interchange available in our quick coupling and clamp lines. Coupling sizes from 1/8" to 2" with various threads and clamp sizes from 6MM to 8" pipe.

Quality First

We only partner with the best worldwide manufacturers in the industry.

Warranty

We offer a one year warranty from date of purchase.

Engineering & Testing

We have full value added engineering and testing capabilities.

Certified

Our high pressure ball valve line carries multiple certifications including ISO-9001, Lloyd's register, DNV, TUV and DVGW.

Priority Service

Every order at PCI is a priority.

Industries We Work With

Industrial

Agricultural

Offshore

Mining

Construction

Pressure Wash

Petrochemical

Renewable Energies

And more

FF Series

ISO-16028 Flush Face Couplings

The FF Series is a flat face dry break coupling that meets or exceeds the ISO 16028 standard.

Features

- Non-spill / Flush Face Design
- Push to connect
- Sleeve lock standard
- Anti-Blowout Nitrile
- PTFE Bonded Seal

Applications

- Hydraulic tool
- Skidsteer loaders
- Agricultural
- Overhead bucket hoists
- Chemical
- Railway
- Public utilities

Interchangeability

- ISO 16028

Materials

- Zinc Nickel plated steel
- Buna-N seals standard

Sizes

- 1/8" to 1" nominal

Temp. Rating

- -22°F to +230°F

Rated Pressure

- 5000 PSI in sizes 1/8" to 1/2"
- 3625 PSI max. in sizes 3/4" to 1"

Performance:

Dimensions provided are for reference only.

ANV Series

ISO 7241-I Series A Industrial Interchange

Features

- Ball lock
- Manual connect/disconnect
- Poppet valving
- Slim profile
- Zinc plated steel

Applications

- Construction
- Agricultural
- General industry
- Fluid transfer

Materials

- Zinc plated steel
- Stainless Steel spring, balls and retaining ring
- Buna-N seals

Sizes

- 1/4" to 2"

Temp. Rating

- -4°F to +212°F

PVEP Series

Screw Together Couplings

Features

- Connect/disconnect under pressure up to 4350 PSI
- Improved corrosion resistance
- Two stage valve protects sealing components during pressurized connection and disconnection
- Flush face design avoids fluid loss and air inclusion

Applications

- Excavators
- Grapples
- Hammers
- Construction Equipment
- Oil Field

Interchangeability

- Stucchi VEP
- DNP PST4
- Parker FET

Materials

- Steel with QPQ Plating

Correct Procedure To Connect And Disconnect The PVEP Series

1. Clean all mating surfaces thoroughly, then pull socket sleeve forward.
2. Align socket and plug, pushing/turning the socket sleeve towards the plug while engaging the threads. Allow threads to pull socket into the plug.
3. Initial connection should be hand threaded, followed by a wrench.
4. Continue to thread socket sleeve into plug until end of sleeve meets plug body.
5. To disconnect, use a wrench to break sleeve free and keep socket and plug aligned.

Dimensions provided are for reference only.

PC35 Series

High Pressure Couplings

Features

- 10,000 PSI working pressure
- Safety lock standard
- Slim profile
- 6 GPM rated flow
- Buna-N O-rings
- Direct interchange to Parker TC Series and Eaton FD35 Series

Temp. Range

- -15°F to +400°F

TNV/TNL Series

Valved and Non-Valved Couplings

Features

- High concentration of locking balls
- Heavy knurled sleeve
- Stainless steel spring, balls and retaining ring
- Buna-N O-Rings and Teflon backup rings

Applications

- General industry
- Construction
- Fluid transfer
- Transportation
- Chemical
- Oil and gas

Materials

- Steel

Sizes

- 1/4" - 2"

Temp. Rating

- -20°F to 215°F

Interchangeability

- Parker/Snap-Tite
- Dixon
- Faster

H900 Series

Diagnostic Couplings/Micro Hoses

Features

- Leak-proof connection
- Connect/disconnect under pressure up to 5800 PSI
- Self-locking metal cap
- Able to test systems at working pressure

Applications

- Monitoring and control of pressure
- Venting
- Fluid sampling
- Remote testing

Interchangeability

- Stauff
- Parker

Materials

- Steel
- Stainless Steel

Temp. Rating

- -22°F to 212°F

Rated Pressure

- 9000 PSI

NOTE:

- Please see gauge kits available on page 39.
- Black rubber gauge protectors are available for all digital gauges.
- Contact PCI for details and pricing.

H900 Series Test Kits

Standard Gauge Kit Part Number HPTK-1

Kit Includes

- 2 pcs 40" microhose with M16x2 female by 1/4" NPTF ends
- 1 pc 0-1000 PSI pressure gauge 2 1/2" bottom mount
- 1 pc 0-3000 PSI pressure gauge 2 1/2" bottom mount
- 1 pc 0-5000 PSI pressure gauge 2 1/2" bottom mount
- 1 pc M16x2 x 7/16"-20 ORB test point
- 1 pc M16x2 x 9/16"-18 ORB test point
- 1 pc M16x2 x 1/8" NPT test point
- 1 pc M16x2 x 1/4" NPT test point
- 1 pc M16x2 female x 1/4" NPT female gauge connector
- 1 pc M16x2 x 1/4" BSP test point

Case Dimensions

11 1/2" x 7 1/2" x 3"
WEIGHT: 3.95 LBS

Digital Gauge Kit Part Number HPTK-3

Kit Includes

- 2 pcs 40" microhose with M16x2 female by 1/4" NPTF ends
- 1 pc 0-3000 PSI digital gauge 2 1/2" bottom mount
- 1 pc 0-5000 PSI digital gauge 2 1/2" bottom mount
- 1 pc 0-10,000 PSI digital gauge 2 1/2" bottom mount
- 1 pc M16x2 x 7/16"-20 ORB test point
- 1 pc M16x2 x 9/16"-20 ORB test point
- 1 pc M16x2 x 1/8" NPT test point
- 1 pc M16x2 x 1/4" NPT test point
- 1 pc M16x2 female x 1/4" NPT female gauge connector
- 1 pc M16x2 x 1/4" BSP test point

Case Dimensions

11 1/2" x 7 1/2" x 3"
WEIGHT: 4.05 LBS

NOTE: Longer length microhoses available. Please contact PCI Hydraulics customer service for quotation and availability.

Two-Way High Pressure Ball Valves

BKH Series

Specifications

- Block body
- Full port, sizes 1/4 - 1"
- Reduced port, sizes 1 1/4 - 1 1/2"
- NPT - ORB connections
- POM (Polyacetal) ball seats
- Buna-N O-Rings
- Zinc clear coating (RoHs compliant)
- Temp range -20°F to 215°F
- Nickel plated ball

Options

- Lock kits
- Actuator packages
- Straight handles
- Red aluminum handles
- Special ball seats and seals for higher temperature and aggressive applications
- Mounting holes

Direct Mount PV2 and PV3 Series

2-Way/3-Way Ball Valves

Specifications

- Block body
- Full port
- Code 62
- Direct mount
- POM (Polyacetal) ball seats
- FKM/FPM O-Rings
- Temp range -20°F to 215°F
- Nickel plated ball

Options

- Locking device
- Actuator packages
- Red aluminum handles
- Special ball seats and seals for higher temperature and aggressive applications

Code 61/62

Full Flange Ball Valves

Specifications

- Block body
- Full port
- Code 61/62 full flange ends
- POM (Polyacetal) ball seats
- Buna-N O-Rings
- Temp range -20°F to 215°F
- Zinc clear (Standard)
- Black oxide (As requested)
- Nickel plated ball

Options

- Lock kits
- Actuator packages
- Straight handles
- Red aluminum handles
- Special ball seats and seals for higher temperature and aggressive applications
- Stainless steel

High Pressure Ball Valves

with Actuators and Limit Switches

We offer a wide range of Ball Valves with actuators and limit switches. Contact us today with your requirements.

Please use the following checklist when requesting a quote:

- ☒ Type of actuator (electric, hydraulic or pneumatic)?
- ☒ Operation (double acting or spring return)?
- ☒ Media? Needs to be specific.
- ☒ Maximum system pressure?
- ☒ Temperature?
- ☒ Environmental (is weatherproofing required)?
- ☒ Send all inquiries to sales@pcihydraulics.com

Dimensions provided are for reference only.

High Pressure Ball Valves

Quality Information/Warnings

All high pressure ball valves on pages 41 through 55 are manufactured in Germany by Pister® Kugelhähne GmbH.

Pister strives to demonstrate the high quality and reliability of its products. The safety standard is demonstrated through the BAM-Seal, DVGW approval and Vds production and automobile registration. Pister is a certified ISO 9001-2000 company.

A quality management system ensures that the organizational, commercial and technical operations that effect the design quality of our products are planned, controlled and monitored, and that contractually agreed requirements will be met.

Quality Certification

Secure adaptor during installation.

No welding, drilling, etc.

Don't operate a ball valve with a tool or an extension.

Don't remove under pressure.

Don't dismantle.

Failure or improper selection or improper use of any of the products and/or systems found in this catalog can cause death, personal injury and/or property damage.

This catalog and other information from PISTER-Kugelhähne GmbH provides product options for further investigation by users having technical expertise. It is important that you analyze all aspects of your application and review the information concerning the product in the current product catalog. Due to the variety of operating conditions and applications for these products, the user, through its own analysis and testing, is solely responsible for making the final selection of the products and assuring that all performance, safety and warning requirements of the application are met. The products described herein, including without limitation, product features, specifications, designs, availability and pricing, are subject to change by PISTER-Kugelhähne GmbH at any time without notice.

PW5000 Series

Pressure Wash Valves

Specifications

- 5500 PSI max working pressure
- Wedge handle for easy operation
- Quick water shut off for easy changing of wash guns
- Bulkhead mounting nut integrated design
- 304 stainless steel body, ball and stem
- 3/8" and 1/2" body and NPTF thread sizes
- 212°F max media temperature

Flow Performance

- 5 GPM max rated in 3/8"
- 10 GPM max rated in 1/2"

Flow Control Valves

Specifications

- Micrometer adjustment knob for accurate valve setting
- Rugged construction
- Carbon steel body with black oxide plating
- Zinc alloy handle
- Steel set screw
- Buna-O-Ring/PTFE stem packing

Maximum Pressure

- 5000 PSI

Temp. Rating

- -4°F to 176°F

PC-100 Series

Needle Valves

Specifications

- Made in the USA
- Compact valve size built for maximum durability and performance
- Available in zinc plated steel, brass, and 316 stainless steel
- FKM o-ring and PTFE back-up ring below the stem threads to protect from corrosion
- All stem threads are rolled for strength and ease of operation
- Patented body-to-bonnet, metal-to-metal seal is designed to increase pressure range

Orifice Size

0.172"

Flow Coefficient

Cv 0.42

Pressure

PC-400 Series

Needle Valves

Specifications

- Made in the USA
- Blow-out proof stem provides a secondary stem seal in the fully opened position
- FKM o-ring seal and PTFE back-up ring below the stem threads to protect from corrosion
- All stem threads are rolled for strength and ease of operation
- One piece bonnet with a metal-to-metal seal to the valve body below the bonnet threads
- Slotted spring pin to prevent accidental loosening
- Vinyl dust cap for bonnet and stem (non-packing)
- Available in steel and 316 stainless steel
- All stainless valves meet NACE requirements
- 10,000 PSI rated

Value Added Service Partner

*You define it.
We provide it!*

✓ Custom engineered products

Get your customers exactly what their system needs with components designed to your specs and built to handle their environment.

✓ Sub-assembled kits

Save time and reduce errors with kits pre-built to your specs. Each kit is quality-checked, clearly labeled, and ready to install.

✓ Branded bagging and tagging

Put your brand front and center with custom packaging and kitting, giving your customers a clean, professional experience.

✓ Industry-leading turnaround time

Deliver under pressure and keep your customers' projects on schedule with fast, reliable fulfillment from a responsive team.

We Are Who We've Always Been

The Values That Built Us

PCI Hydraulics+ began in 1985 as a small, service-first operation with a simple goal: **to be there when our customers needed us.**

Over the years, we've grown into a trusted global partner in hydraulic and fluid power components. Today, we help OEMs, distributors, and service shops stay responsive with same-day fulfillment, global sourcing, and a team that's personally invested in your success.

While our business looks different today than it did in 1985, the heart of PCI is, and has always been, service and relationships. Our simple, founding goal has led to decades-long partnerships with manufacturers, technology partners, and customers—relationships that have stayed strong because we've stayed true to the values we started with.

A lot can change in 40 years, but some things shouldn't. No matter how the industry evolves or how many years go by, we'll always be a partner our customers can rely on. One who helps you strengthen your own customer relationships through friendly service, fast delivery, and reliable access to high-quality hydraulic components.

Terms and Conditions

Pressure Components Inc. (herein called "PCI") warrants the products described in this catalog to be free from defects in material and workmanship for a period of (1) year from date of shipment by PCI under normal use and service.

PCI's sole obligation under this warranty being limited to repairing or replacing, at it's option, any product found to PCI's satisfaction to be defective upon examination. The repair or replacement of any defective product will be made without charge for parts or labor.

This warranty shall not apply to: (a) parts or products that have been subject to abuse, negligence or misapplication. (b) parts that have been added to the original product, such as but not limited to fittings, bushings and reducers, and were not an original part of the product originally provided. (c) parts that have been altered or repaired by someone other than PCI.

To the extent permitted by law, this limited warranty shall extend only to the buyer and any other person reasonably expected to use or consume the goods who may become injured by any breach of said warranty. No action may be brought against PCI for an alleged breach of warranty unless such action is instituted within one (1) year from the date of the cause of action accrues.

Other than the obligation of PCI set forth herein, PCI disclaims all warranties, expressed or implied, including but not limited to any implied warranties of merchantability or fitness for a particular purpose, and any other obligation or liability. The foregoing constitutes PCI's sole obligation with respect to damages, whether direct, incidental or consequential, resulting from the use or performance of the product.

Product dimension, performance, characteristics or material properties are subject to change without notice.

Payment: Net minimum billing \$25.00

Net 30 day terms will apply after credit has been established. Automatic C.O.D. if credit terms are not met. We accept most major credit cards. Pricing subject to change without notice.

Returned Goods

All returns MUST be assigned an RGA number, The RGA number must appear on all paperwork. If any product is being returned for any other reason than product defect, a 20% restocking charge will be deducted from the credit. Products being returned for credit must be in re-saleable condition and the freight must be prepaid. Credit balances can be offset by material purchases only. Any credit issued by PCI must be used within a 6 month period from date it was issued. Cash payments are NOT ALLOWED under any circumstances.

Insurance

PCI carries product liability insurance and will provide a copy at your request.

Billing or Shipping errors

Errors in shipping or billing must be reported within 10 days of receipt of order.

Special Orders

Special orders are non-cancelable and non-returnable. Products that are considered "special" will be noted on all order confirmations.

Shipping

All shipments are FOB origin.

W A R N I N G

Products in this catalog can cause serious injury to equipment and persons if not used properly. Never exceed rated pressures stated in the PCI catalog. Stated working pressures are rated in p.s.i. Inspect products on a regular basis while in service. Products in this catalog are used in thousands of applications in varying situations. It is not possible for us to warranty the use of a specific product for a singular application. The user is responsible for selecting, installing and testing the final configuration to insure that all performance, safety and warning requirements are met.
